Action of Committee on Shipbuilding.

PHILADELPHIA, Dec. 2.—The Congressional Committee on the causes of the decline in the shipping interests of the country, met here to-day and took the evidence of several prominent ship builders and business men. The Committee proceeded to Washington to-night, and will in due time report the following propositions to Congress: First, for a drawback of duty upon all materials entering into the construction of vessels, and substantially equal to the amount of duty, when American material is used. Second, for permission to Americans to purchase and register foreign built vessels. Third, in favor of subsidies to American lines of ocean steamers.

Miscellaneous.

NEW YORK, Dec. 3.—The new building of the Young Men's Christian Association, of this city, was dedicated this evening. Rev. S. H. Tyng offered a prayer, and addresses were delivered by Vice-President Colfax, Gov. Hoffman and others.

Jack Looney issues a card to-morrow offering to put up $1,000 of his own money to be fought for by Allen and McCoole on New Year's day. The money to be put up in the hands of Allen's principal friend, so as to secure its reception by him if he wins it. McCoole also to put up the bolt against its money value.

Washington News.

WASHINGTON, Dec. 2.—It is officially announced that on and after the 1st of January, 1870, single postage, half-ounce or under, for prepaid letters between the United States and the United Kingdom of Great Britain and Ireland, shall be reduced to six cents; if not prepaid, or if insufficiently prepaid, a fine of six cents is to be added to the deficiency, and collected on delivery. The rates of postage and conditions of payment on newspapers, books, packages and samples, remain unchanged.

The President to-day accepted the resignation of Reedy W. Clark, Third Auditor of the Treasury, who, on account of his health, prefers the office of Supervisor of Internal Revenue for the southern district of Ohio. His successor is not yet appointed.

Representative Paine, Chairman of the Committe on Elections, says the contested election cases will be pressed forward to early consideration.

CHICAGO, Dec. 3.—A Washington special says Commissioner Wells expresses the opinion that the revenue can be reduced $120,000,000 and to this end the Committee of Ways and Means propose to cut down the tariff $25,000,000 and the internal revenue $50,000,000. On a vote to take off the duty on coal, salt and copper the Committee are a tie.

WASHINGTON, Dec. 3.—The President has appointed James H. Fisk Commissioner to examine and report upon the Oregon railroad, vice Jesse Applegate resigned.

Funeral of A. D. Richardson.

NEW YORK, Dec. 3.—All the papers contain eulogistic notices of A. D. Richardson. His funeral services were held to-day at noon at the Astor House. Rev. Frothingham read a portion of the Scriptures and delivered an eulogy on the deceased. He bore testimony to the beauty of his character. Henry Ward Beecher followed with a tribute to the memory of Richardson, expressing belief in his perfect purity of motive and integrity character, accompanied with a withering rebuke to those who have unnecessarily assailed them. He concluded with a prayer, when the services closed. The remains will be removed this afternoon to Medway, Mass., where they will be interred. A large number of the friends of the deceased were present, among whom was Horace Greeley.

Trouble with Brigham Young.

CHICAGO, Dec. 3.—There has been a controversy between Brigham Young and the internal revenue officers of Utah. Until this year, he succeeded in beating them at every point. The present officers, however, have brought Brigham to terms in the quarrel between them about the proper tax on what is called church property. It appears that Brigham is charged with about $50,000 tax and penalties, and he proposes to fight the case before the Revenue Bureau until it will probably reach Congress.

The destination of the troops stationed at the various posts in the New York harbor, who have been ordered to hold themselves in readiness to move to-morrow, is, it is stated, to posts lying in and around Mormon territory. It is further stated that the attitude of the Mormons has recently been of a hostile character. It is reported, too, that the movements of troops is to make another Fenian invasion. Another report is that the troops are to capture another Cuban expedition.

National Board of Trade.

RICHMOND, Nov. 3.—In the National Board of Trade Convention to-day, Mr. Monroe, of Dubuque, Iowa, showed that a double track railroad, 1,200 miles long, from the central source of grain and produce in the west, to the Atlantic, with trains starting every five minutes, and having 3,000 trains on the track, with 54,000 cars in constant motion 365 days in the year, could carry only fifteen and three-quarters millions of tons, each way, while a Virginia water line of boats, carrying 280 tons, double lock, used only 300 days in the year, could carry over 10,000,000 tons each way. The whole subject was then laid over, including the Niagara Ship Canal, and the subject of regulating railroad tariff by Congress. Other questions were also discussed during the day, without final action.

Seizure of Whisky—A Row Therefrom.

NEW YORK, Dec. 3.—One of the greatest whisky raids made in the neighborhood of this city since the passage of the Revenue Laws, took place this morning in the Fifth Ward, Brooklyn, in a section adjoining the Navy Yard, known as Irishtown. Extensive arrangements for the attack were made, as it was apprehended resistance would be made. General McDowell ordered 500 regular troops to co-operate with the Revenue officers, under Commissioner Pleasanton. The distillers are twenty in number. The troops formed in line and the Revenue officers attacked the distilleries. Thousands of gallons of whisky were allowed to run from the vats, as a number of stills were running at the time. Thirty-five barrels of whisky were seized, and three distilleries destroyed or captured. The party were attacked in a little street by a crowd numbering nearly 2,000 people. Several persons were injured by bricks thrown from the house tops. The presence of the troops, however, prevented a serious outbreak. The crowd followed the troops to the Navy Yard, keeping up an uninterrupted volley of missiles. A German, who was in the working party, had his head laid open by an ax in the hands of a ruffian. The rioters congregated about Gates and adjacent streets, muttering threats of vengeance against the troops and Revenue officers, up to a late hour this afternoon.

Loss of the Steamboat D. C. Harkin

NEW YORK, Dec. 3.—The steamer *D. C. Harkin*, Capt. Edgar Wakeman, hence November 12th to San Francisco, foundered in the Gulf Stream, 400 miles from New York, at half past 11 o'clock P. M. The Captain, first assistant engineer and ten men left the steamer in one boat and were picked up by the schooner *Grassmere* and taken to Bermuda. After getting alongside the schooner, one man stepped suddenly on the side of the boat and capsized her, and three of the twelve men were drowned. Another boat, with four or five persons aboard, is missing, also a raft, containing several more.

U. S. Treasurer's Report.

WASHINGTON, Dec. 3.—Treasurer Spinner's report says that between the 11th of May and 28th of November, there was paid for U. S. six per cent bonds on account of the sinking fund and for the fund held subject to the order of Congress, interest paid thereon included, $49,282,290. These payments exceed half a million dollars for every working day. The Treasurer now holds in trust for the Secretary of the Treasury on account of the two funds named, $[illegible],800 in U. S. six per cent stocks. The dividend on these stocks will not be income to the Treasury and for the reduction of the public debt, $4,528,278 yearly. There has been already received for interest on these bonds, $[illegible] in gold, which has been invested in U. S. bonds, representing $787,800, which is held for the two before mentioned funds. If the same rate of purchase is hereafter maintained, and the accruing interest is invested semi annually in like bonds, the whole national debt can be paid in less than thirteen years.

New York News.

NEW YORK, Dec. 2.—Rumors are prevalent that more persons are to be arrested on the charge of being connected with the drawback frauds. It is reported that a clue has been found to the hidden whereabouts of Samuel F. Blatchford.

A Key West letter says that news had reached them from Cuba announcing that the revolutionists surprised Cienfuegos and seized a large quantity of provisions, clothing and medicine, and returned in good order.

Interrupted letters from Spanish officers also say there is no prospect of suppressing the rebellion.

A *Times* Havana letter says that the Cienco Villas District troops are massing there. They will be sufficient to draw a regular cordon across the island and compel the insurgents to abandon the country or force them to battle, in which they have no chance against disciplined soldiers.

Rufus King, formerly Minister to Rome, has resigned his position in the Custom House.

The frigate *Guerriere* goes out as flagship to the South Atlantic squadron. The *Susquehanna* is being converted into a screw steamer.

Fifty ruffians to-night made a raid on a registry office in the upper part of the city, destroyed the registry list and robbed one of the inspectors of his valuables.

Ninety-seven thousand Germans reached this port to date this year.

The cashier of a bank in Switzerland, who absconded to this country with about 20,000 francs, has been sent home for trial.

Garroting is revived here. A case occurred last night.

Rates of Freight Overland.

There has been considerable advance in the passenger rates and freight to the West, bulletined to-day. The new freight rates to San Francisco for first-class are $8 per hundred.

Post Mortem Examination on the Body of Richardson.

Dr. Cushman this afternoon held a post mortem examination on the body of Richardson. It was found that the stomach, liver and intestines of the deceased had been penetrated through and through. The physicians express the utmost surprise that he should have survived so long. The body will be taken to Medway, Massachusetts, to-morrow afternoon. The funeral services will take place at noon, and be conducted by Beecher and Frothingham. Vice President Colfax and other distinguished gentlemen will attend the obsequies. McFarland is said to be preparing for his defense. He has secured the services of John Graham and Charles Spencer.

Alabama Legislature.

MONTGOMERY, Dec. 2.—The Senate to-day discussed a bill to give the negroes equal privileges in public conveyances. The Democrats favor an amendment providing that common carriers be forced to provide equally comfortable but separate quarters for the two races.

Bible Question in Cincinnati.

CINCINNATI, Dec. 2.—The arguments in the Bible Convention were continued to-day in the presence of a great crowd. Intense interest is manifest.

Canada News

MONTREAL, Dec. 2.—General Neltham, commanding the forces in Canada, has obtained two months' leave of absence. General Doyce will have command in Ontario and Quebec, with headquarters at Montreal.

Heavy Republican Majority in Mississippi—Farewell Dent.

MEMPHIS, Dec. 2.—The *Avalanche's* Jackson special to-night says Alcorn's majority in the counties heard from is over 32,000. The gain for the Radicals in the same counties is nearly 30,000. No disturbances occurred, and everything was extremely quiet. The result astonishes the natives.

JACKSON, Dec. 3.—Additional returns from six counties gives Alcorn several thousand additional majority. Dent carried but three counties, and these by very small majorities. The whole Radical ticket, with few exceptions, is doubtless elected.

Defalcation in the Cleveland National Bank.

CLEVELAND, Dec. 2.—The Board of Directors of the Second National Bank has completed the examination of its accounts, and publishes an official statement of the extraordinary defalcations of the late cashier Buel, concerning which there has been great excitement in financial circles throughout the Union. Buel, during his long connection with the bank, had the full confidence of the directors and the customers of the bank, which confidence has been systematically betrayed. His defalcation is stated in the memorandum, as prepared by him just previous to his death, and left for the investigation of the directors. The abstractions amounts to $47,000. The bank has a surplus amounting to over $539,000, and is authorized to call in from the stockholders $200,000. Public confidence in the bank is unimpaired.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, Dec. 4.

The next steamer from Panama will be the Constitution, to sail two weeks from to-day.

The steamer *China* will sail for Yokohama and Hong Kong, January 1st, 1870.

Lugi Veneto, a native of Italy, and a cook by occupation, committed suicide this morning at his boarding house, No. 34 Clay street. It seems that deceased had been suffering severely of late from sore throat and chest, and being also thrown out of employment, was depressed in spirit, and complained bitterly of his misfortunes.

About 4 A. M. to-day, a fire was discovered in a dry goods store, No. 903 Kearney street, just north of Jackson street, but was soon suppressed. The fire had been kindled in the store in six different places. Two men, Hyman D'Wolf and David Levy, slept in the store, and they were taken into custody on suspicion of having fired the premises.

Members of the police force have contributed to a testimonial to be presented to Mayor McCoppin on his retiring from office.

LAST NIGHT'S DISPATCHES.

Texas Election

GALVESTON, Dec. 5.—Total vote here 2,176. The count of the canvassers will not be known until to-morrow. Lead, a negro, is believed to be elected Clerk of the District Court. Austin, Williamson and Hall counties are unanimously for Hamilton and Haynes. In Prairie county nearly half the white voters remained away from the polls. In this county Hamilton's majority is about 200. Nothing has been received from the other counties.

HOUSTON, Dec. 5.—Total vote 2,350. Nothing definitely is known, but it is believed Davis, Radical candidate for Governor, carried Harris county by several hundred majority. Richmond and Texas give large Radical majorities for Davis and Radical Congressmen.

New York News.

NEW YORK, Dec. 2.—The *Herald* commenting on the increasing of shipments of wheat and flour down the Mississippi to New Orleans for shipment to England, says that against the Southern water line of the Mississippi, the only competition by this Western grain trade that will pay in the east will be the water line by the St. Lawrence to the sea, hence annexation of the New Dominion down to the sea is more and more becomming a necessity to the great grain growing region of the Northwest.

Alexander McDonald, President of the Miners Association of Great Britain, who is upon a tour through this country observing the labor element, addressed the Workingmen's Union last night in regard to the Chinese on the Pacific slope. He said their further importation should be stopped, as it is an importation of a slave element and worse in some respects than the old negro element that brought about our war.

Georgia Politics.

NEW YORK, Dec. 4.—The Governor of Georgia has written a letter to the *Times*, in which he demonstrates the reasonableness of the position assumed by the Republicans of Georgia. Moderation and justice are now urged upon Congress. He says the new Constitution of that State was prepared by a Republican Convention, ratified by Republican ballots, and is remarkable for its liberality. Intolerance has no place in its provisions. It prescribes no hard penalty, imposes no disability on the enemies of reconstruction, and is a monument of the good sense and good feeling of those on whom Congress relied for the accomplishment of its objects.

We cannot excuse ourselves from guilt in allowing such mischievous delusions to be promulgated, if we leave it to be inferred that our legislation will be timed only by the demands of the peasants of Ireland. The Nature of the Approaching Contest

For a considerable time the Democratic papers of Oregon have been engaged in a concerted attack on Senator Williams. The charges they make against him are all of that petty and mean character which are so readily invented by partisan malice, and so easily amplified by those who never allow themselves to be troubled or hampered by an adherence to facts. Nothing can be easier than for the average Democratic editor to write by the column in this strain; for though he begins with a small accusation supplied by his own invention, he is able to stuff it out with a great variety of denunciatory adjectives until it assumes the proportion of a formidable "leader." No man is more intensely hated by the Democratic party than Senator Williams, and this fact is not surprising when we take into consideration the bitterness with which that party opposed the war for the Union and the measures subsequently adopted for reconstruction and peace, and remember that Senator Williams has been the most prominent member in either House from the Pacific Coast in urging and establishing a policy in these matters in accordance with the dominant political sentiment of the country.

Undoubtedly the Democratic idea is that in striking at Senator Williams in this way they are inflicting blows upon the Republican party. They assume that he is the only Republican in the State of whom they have anything to fear, and therefore they attack him with all the weapons in their arsenal of falsehood and defamation. Now it is no doubt a flattering testimonial to the Senator to be regarded by his adversaries as so formidable a man; nevertheless they err greatly if they suppose that the Republican party is going into the approaching contest to make a fight for any particular individual for that high position. The party recognizes the great services of Senator Williams and appreciates the standing which he has assisted so much in giving to Oregon at Washington and throughout the country. But the party is not *indebted* to any man, and when it calls for any man's services it is then time for him to step forward. As to the coming election, the first care of the Republican party must be to carry it. There is no occasion for any dispute about *men*. We want Republican State officers and a Republican Legislature, and after such a Legislature is chosen it will be time enough to open the Senatorial question. The Republican party through the delegates whom it sends to State Conventions, selects its candidates for State officers, and, in like manner, through the members it sends to the Legislature, it will indicate its preference for United States Senator. A contest of a personal nature always weakens a party, and the Republicans of Oregon therefore propose to avoid a quarrel about men,—such quarrels as have been so fatal to the party elsewhere. To-day the Republicans of California are in a minority solely because of dissensions produced in this way. Among the Republicans of Oregon, so far as we know, there is no candidate for any office who is pushing himself forward in advance of the call of his party. All know that the contest will be a close one, and that success can come only through harmonious action. Republicans, therefore, will not allow themselves to be drawn aside from the general object of their endeavors, to an impertinent controversy about *men*. In the event of their electing a majority of the Legislature they will choose a true man for the United States Senate. They may re-elect Senator Williams, or they may unite on some other person. Of one thing our Democratic contemporaries may assure themselves,—their abuse of Senator Williams will not lower him in the estimation of the Republican party.

Another "Issue" Gone

Some weeks ago the telegraph reported that under a recent decision of the Internal Revenue Bureau, farmers who go to market and sell produce are to be considered brokers and must pay a special tax. This telegram has been a source of great distress to the Democratic press of this State. All the papers of that party have had articles on it. They have denounced the order as an embargo on the sale of farm produce, and have appealed to the people to know if they were going to submit to this last and most oppressive act of tyranny. The Albany *Democrat* made so much ado about it that one of the merchants of that place addressed a letter to the Internal Revenue office at this city asking for information on the subject. The Deputy Collector returned the answer that any farmer could go to market and sell the produce of his own farm, but that if he sells the produce of other farms than his own, he is then a produce broker and must pay a special tax as such. This completely knocks on the head all the fine argument of the *Democrat* and its co-laborers of the press, and shows them how much energy and time they have wasted. The telegraphic report which gave them so much anxiety was, we suppose, quite imperfect, as such reports often are; that is it did not give full information, and in consequence we have witnessed this ebullition of indignation which in Democratic editors is always in excessive supply.

Brief Mention

Our attention has been called to the course of an obscure and unscrupulous sheet whose columns are devoted to the propagation of slanders upon prominent Republicans of Oregon. The sheet referred to takes advantage of its utter irresponsibility to give currency to libels for which any responsible newspaper would be instantly called to account. Its object, which is two-fold, is very well known. In the first place it expects to obtain black mail. The principal writer employed upon it hopes that by carelessly reiterating his falsehoods and calumnies some of those whom he is assailing will pay him something to stop. This is the dream of his hours of inebriety, during which his vituperative assaults are prepared. A few dollars to maintain that salamander of his with fire would easily buy him off. In the next place he is actuated to some extent by a spirit of revenge. Having once been employed in some petty position connected with the Indian service he was dismissed for general worthlessness and unreliability and he now takes this method to get even. We are as brief as possible in giving an account of the origin of these calumnies since the subject is one which every person of decent sensibilities must shrink from.

The Uses of Adversity

The San Francisco *Examiner*, the leading Democratic paper of the Pacific coast, has heretofore vied with the most violent of the Copperhead press in its expressions of hatred of the national debt and opposition to its honest payment. But even the *Examiner* is now changing its course. Perceiving that further opposition on this point to the honest sentiment of the country would be the height of folly, it says: "To repudiate the debt would be dishonesty of the most inexcusable kind." We are unwilling that the Republic shall bring upon itself this unmistakable disgrace. The party that openly raises the banner of repudiation must go down, and it is folly to attempt to disguise the question by greenback sophistries. So it does do a dishonest political party a deal of good to get soundly beaten. A few more defeats and even the hardest of the hard shells of Oregon will begin to show signs of going back on the time honored principles.

Dent is terribly beaten in Mississippi. The "carpet-bag brother-in-law party," after all their blowing, developed no strength at all. The result is a most satisfactory one. Reconstruction in Mississippi is now in safe hands. For this result the country is mainly indebted to President Grant, who was too wide awake to be deceived by this so called "National Republican" Dent movement, which was a movement in the interest of the unreconstructed rebel Democratic element. We are now finally rid of Dent. What shape will the Democratic party take next.

OREGON

Farmers generally throughout Linn county are busily engaged in plowing.

Alfred Brooks of Salem died suddenly on Thursday. His disease was enlargement of the spleen.

Dr A B Westfield, of Lafayette, died on the 30th November. He had been a resident of Lafayette since 18[illegible].

A Commercial Department will be opened in connection with Wallamet University at Salem at the beginning of the next term in January.

The Albany *Register*, under the management of Col. Van Cleve, has become a model local paper. Every week it tells all that is to be said of affairs in its locality.

An Albany paper says: More hogs are being slaughtered in this county this winter than usual. Also most every farmer is killing from half a dozen to half a hundred.

It is stated that the *Oregon Medical Reporter* is preparing an article on insanity, based on statistics of the East Portland Asylum for the Insane. We look for many interesting facts to be disclosed.

The people living in "Canada," or that portion of Linn county lying in the forks of the Santiam, talk of the project of a separate county organization with Scio as the county seat. Give em a separate Confederacy by all means.

H M Walker, of Benton county, died suddenly at his residence a few days since. He went into the woodshed for wood, and, staying longer than was thought by the family necessary, they went to look for him to find him a corpse.

The Albany ghost,—so the *Register* tells us—was out in full feather the other night. This time the ghost was gotten up in awful style with the aid of a pumpkin into which holes for eyes, nose and mouth, were cut, a lighted candle inserted, the whole covered with a blanket.

A romantic couple of the mature age of thirty or thereabouts, last week called upon a Justice of the Peace in the neighborhood of Albany, at the witching hour of 1 o'clock A M, and desired him to marry them. He did the job with as good a grace as possible, and they looked out for lodgings.

We are told by the Salem daily that on Thursday last Mr J L Parrish discovered that nine dogs were worrying his sheep, so he armed himself in defense of his flock and soon killed seven of them, two of them being laid out with one shot. If it had been a good day for dogs, he would probably have "fetched" the other two.

The Albany *Register* learns that the railroad surveying party have discontinued work in the field for the present, and are returning. The route through the Rock Creek Pass has been abandoned. It was found impossible to get up the hill about four miles this side of Cartwright's, known as Siuslaw hill. Chief Engineer Brooks arrived in Albany on Thursday evening last.

The *Statesman* of Saturday says: The officers of the People's Transportation Company, for the ensuing year, elected yesterday, are the same as the previous year, as follows: A A McCully, President; T McF Patton, Vice President; S T Church, Secretary, and George Marshal, Chief Engineer. The Board of Directors five in number consist of Messrs E N Cooke, David McCully, Joseph Kellogg, A A McCully and T McF Patton.

The *Statesman* of Sunday says: The protracted meeting in South Salem, begun under the Rev Mr Wood's ministration some weeks since, is still in active progress. We learn that there have been quite a number of conversions, fifteen have united with the M E Church, and some with other denominations. Mr Wood is assisted by Revs C C Stratton and J M Garrison. The Church is still well filled every evening for the services at 7 o'clock, and it is the intention to keep it up as long as there is sufficient interest manifested.

According to the *Statesman*, when the stockholders of the P T Company were in session the other day, as we are told, inquiry was made as to the charges of our Democratic contemporaries that the State Treasurer had been loaning State funds to the Company, and an examination of books and accounts—cash accounts especially—showed that the company had never had any use for loans from the State Treasurer or any other man. So gentlemen of the opposition, you can sharpen your quills and try again. The P T Co say they have not been on the borrow.

Tariff Rates at the East

[From the Chicago Tribune, Nov. 22.]

Competition is said to be the life of trade. This old saw is being exemplified by the competition between the Western Union Telegraph Company and its telegraphic rivals. The Atlantic and Pacific and other new lines in their struggle for business offered to the public a reduced scale of rates to various points. The Western Union could not afford to be underbid, and promptly reduced its tariff to corresponding and in some cases still lower rates. The announcement of the Atlantic and Pacific and affiliated opposition lines of further reductions, made on Saturday last, is "trumped" on Monday by the promulgation of the following tariff by the Western Union, to go into effect on and after to-day:

For messages of ten words and same rates for all over ten as follows:

From Chicago to—	New rate	Old rate
New York	$1 00	$1
Albany	1 00	1
Boston	1 00	[illegible]
Buffalo	1 00	[illegible] 5
Hartford	1 00	2 20
Philadelphia	1 00	1
Washington	1 00	[illegible]
Baltimore	1 00	
Cincinnati	50	1 00
Louisville	[illegible]	1 35
St Louis	50	[illegible]
St Paul	50	1 [illegible]
Minneapolis	50	1 [illegible]
St Anthony	[illegible]	[illegible]
Dubuque	50	[illegible]

For all messages sent at night *twenty* words instead of ten will be sent at the above rates. This scale of charges will strike the public first rate. They look quite fair and reasonable, and realize to a considerable extent the advantages which were expected to accrue from the adoption of a postal telegraph system. If the company will give this tariff a fair trial for a sufficient length of time we have faith that the increase in business will more than make up the apparent loss in rates. A temporary reduction cannot be expected to double the number of messages. It will take time, but even the short space of six months a very large increase of business will inevitably result. That more messages will be sent to New York at a dollar each than would be at a dollar and three quarters requires no argument to prove, as experience will quickly demonstrate it.

If a further material reduction in the new scale shall result from this rivalry of the competing lines, all schemes before Congress or intended to be brought before it will be laid on the shelf or incontinently give up the ghost.

The New York *Times'* special correspondent in Havana says that five hundred and eighty negroes went over to the insurgent camps within a few days after the publication of the order for the destruction of the cane crop. This is a result which was probably anticipated when the order was issued.

The present scarcity of seamen for the United States service at present so much so that great difficulty is experienced in finding men to enlist. In consequence of this the Secretary of the Navy has issued an order providing for the payment of a bounty to men willing to enter the naval service.

Gen Dent, the President's doorkeeper, says Gen Grant will not allow the New York *Sun* to enter the White House, and Dent denounces the paper as a low dirty sheet, also that the President reads the *World* and most of the other leading Democratic papers, because they have argument in them.

In Lacrosse, Wis, the other day, a gentleman suspecting that some person or persons were stealing his wood, charged a few sticks with gunpowder, but the wood pile tumbled down and mixed it so that one of the marked sticks got into his own stove. He doesn't know who stole the wood, but he is satisfied about the way it "goes off." He bought a new stove and will burn coal after this.

The *Overland Monthly* for December has appeared on our tables. Its contents are: "In Lava Land," "In and around Astoria," "Expectation," "Quicksilver and its home," "Legend of San Juan de los Lagos," "Down among the Dead Letters," "Nevada," "Carillon," "The King of Clear Lake," "Those Americans," "Leaf Leaves," "Minna's Betrothal," "For Three Weeks," "Old Lamps for New," "Her Letter," "The Idyl of Red Gulch," "Etc.," "Current Literature." Here is a variety of reading that is up in its interest to the standard maintained by this valuable Monthly.

Co-operation has just had a new triumph in Paris in the case of the clerks in the large retail dry goods shops. Last spring the clerks employed in these establishments petitioned for Sunday as a holiday, and for some abridgment of the hard drudgery to which they are subjected. Their employers seemed at first disposed to comply with their request, but finally declined positively to do so. A general strike among the clerks was the result, who have turned the tables upon the shopkeepers by organizing themselves into co-operative societies and opening enormous stores exceeding in size any others in Paris. The manufacturers send them all the goods they need, and associations representing an aggregate of 200 000 workingmen have promised them their custom.

Two Hundred and Ten Thousand Short

[From the New York Herald, Nov. 20.]

The popular vote cast in our late State election falls two hundred and ten thousand short of that of last year for Governor, as follows:

Total vote for Governor, 1868	850 656
Total vote for Secretary of State, 1869	640,045
Deficiency	210 611

In other words, only three fourths of the popular vote was cast in the late election, the other fourth remaining at home. There are some other curious figures connected with the late election, as compared with last year. For instance, last year

The Democratic vote for Governor in this city was	112,522
And in Kings county it was	41 419
Total	153 941
This year in New York city, it was	79,488
And in Kings county it was	28 182
Total	107 610
Showing a falling off of	46 335
Republican loss in the same districts	11 711
Which shows a net Democratic loss of	34 616

Thus in New York and Kings county the whole of Hoffman's majority in the State of twenty eight thousand was swept off and six thousand more was gained by the Republicans, and yet this year they lose Sigel by twenty thousand and Greeley by twenty five thousand. How? St Lawrence county, the Republican banner county of "the rural districts," comparing the vote of this year and last year will serve to explain. Last year in this county the Republican majority on the State ticket was six thousand six hundred and fifty four; this year it is five thousand and sixty eight—a dead loss of over fifteen hundred. And so it runs through all the counties. The vote is short on both sides all the way through, but the weight of the dead loss is uniformly with the Republicans. There was no pressing national issue at stake. The Republicans of the interior were tired of voting to keep up these city commissions, excises, registries and what not, and, concluding that Greeley might take care of himself, they let the election go by default. Thus by default the Democrats have gained absolute possession of the State, and the consequence will probably be a work of reconstruction and revolution in our city and State affairs as comprehensive as the radical reconstruction of the rebel States.

The Tug-Boat "Astoria."—This new tug boat built by the Simpson Bro's. for service on the Columbia Bar, arrived a few days since, at her destination. We copy the following description of her from the Astoria correspondent of the *Herald*:

This tug-boat, which goes by the name of *Astoria*, was built in San Francisco, last summer, under the direction of Capt. A. M. Simpson, by a man named Allen and is owned by a company consisting of A. M. Simpson, Geo. Flavel, J. Crosby, A. O. Farnsworth and A. D. Wass. The three latter gentlemen are Columbia River Bar Pilots, and they, with Captain Geo. Flavel, own at least four-fifths of her. Captains Simpson and Flavel are the largest owners, representing about one-half interest. Her cost exceeded the expectations of her owners by about $10,000. It was expected she would cost them about $30,000, but the whole will be little less than $40,000, no expense having been spared to make her staunch and reliable. She is built of Oregon oak, and copper fastened. She is 101 feet in length, with 24 feet beam, and draws 9½ feet without ballast. Her ballast, however, will make but little difference in her draught. The space between decks is at present divided off into four compartments; the forward part will be used as a sleeping place for deck hands. This department is not yet fitted up with the necessary bunks, etc., but will be shortly. The next department is the engine room, which is about 32 feet long by about 16 feet wide, the spaces on either side of this room being occupied by coal bunkers. The next apartment is at present used for a galley, but this is only temporary, as it is intended to have the galley on deck, is the fore-part of the ship, immediately over the boiler. The next apartment is the cabin, which is large and ample, and fitted up with six berths, three on either side. The deck is clear, with the exception of a house which covers the engine room. It is the full length of this room and 8 feet in height. It is the intention however, to have this "cut down" somewhat. The "wheel" is immediately astern of this house, thereby affording protection to the pilot in rough seas. She is schooner-rigged, and could make considerable headway with a fair wind, were her machinery at any time to give out. Her machinery is of the most substantial character, and its power is immense. Her engine was formerly in the steamer *Constitution*. Its cylinder is thirty-four inches in diameter, with a stroke of thirty-six inches. Her boiler is tubular; 18 feet long and [illegible] in diameter. Her pumps, two in number, are [illegible] in diameter and 24 & 8 inches in stroke. [illegible] Her propeller is 9 feet 6 inches in diameter, and has four flanges. She has not yet [illegible] in the way of paint, carpets, and other things which add to the beauty and comfort of a vessel, but these things will be added without delay. When she is complete, and for the work she is expected to do, she is in every way adequate for the task. Al[illegible] arrived here but yesterday morning, after an unusually long voyage, having had to take shelter in two ports owing to the severity of the weather, but principally owing to her want of fuel, to-day she has gone to work. [illegible] of doing things by piecemeal, as has always been the custom with river steamers when [illegible], made fast to no less than three vessels—the U. S. schooner *Humboldt*, the *Mary A.* and the *Bell*, towed them up to Cathlamet Bay, [illegible] of the *Prairie*, where they intend to [illegible]. The tug will be in command of Captain Snow, with John C. Dorey, Chief Engineer.

[illegible]—We are indebted to the *Enterprise* for [illegible]:

[illegible] Crowther, who was formerly employed as [illegible] in the Oregon City Woolen Mills, a very intelligent young man, was killed in a gas explosion at [illegible]brook, Province of Ontario, recently. [illegible] particulars of the explosion, [illegible] Mr. Crowther was employed in the [illegible] of the establishment where he met his death. [illegible] met a similar fate, and a third was badly [illegible].

[illegible] morning, about five o'clock an old frame [illegible] the west side of the river, and on the Harvey [illegible] was burned down. The house was occupied at [illegible] occupants were absent and what little [illegible] was burned. It is supposed to be the work of an incendiary.

[illegible] man, somewhat respectably connected, was [illegible] in the theft of a pair of boots from the [illegible] John F. Miller, in this city. He paid for the [illegible] not prosecuted for the offense.

[illegible] old man fell into a ditch the other day, [illegible] a cry of fire, creating a general alarm. [illegible] after hauling the machines to the spot, [illegible] good healthy cussin'.

Mr. P. E. Neal, who was accidentally shot some weeks [illegible], is rapidly recovering and will be able to [illegible] in a few days.

The railroad track is now completed to Oregon City.

[illegible] We have received, says the *Statesman*, from Mr. [illegible] Pearce, of Eola, his weather [illegible] for November, 1869, and a comparison with the [illegible] in the previous year. From this we condense [illegible]: The 1st was cloudy, 2d rainy, 3d [illegible], 5th clear, 6th to 18th inclusive, rainy, [illegible] 20th rain, 21st clear, 22d cloudy, 23d clear, [illegible] cloudy, 27th rain, 28th cloudy, 29th rain, 30th [illegible]. During the month no frost; there were 7 foggy [illegible] winds prevailed 24 days, northerly [illegible] temperature 46°; highest mean 56° on [illegible] 37° on the 30th. Compared with [illegible], there were 13 days rainy, 5 clear and 7 [illegible] rainy, 16 clear, and 4 cloudy last year, [illegible] 45° against 45° last year.

[illegible] Hour.—In response to a suggestion we made the other morning, we have the following note from Mr. Benj. Todd:

[illegible] an item this morning in your department [illegible] that as there was no probability that Mr. [illegible] would meet my challenge, I had better [illegible] Mr. Armour, of Corvallis. Allow me to say that I [illegible] my challenge to all the Clergy of the State, [illegible] any one of them whom their Church will [illegible] capable of defending their faith. But if they are such religious cowards that they dare not meet [illegible] the public rostrum; and are willing to endorse Mr. [illegible] in the same manner, I will meet him on those [illegible] mentioned.

[illegible]—The barkentine *J. Heaton* brought [illegible] from New York the cast iron fronts for a new brick [illegible] by Mr. H. W. Corbett, on First street.

The Plaza matinee, Saturday afternoon, as usual, brought out a great crowd of ladies and gentlemen.

[illegible] at Harmony Hall, Prof. Maximilian will appear in his great "African Ball" performance.

[illegible] Brown, an old citizen and fireman of this city, [illegible] home per steamer *Montana* from a few [illegible] at the East.

The Washington Guard soiree at their Armory Saturday [illegible] not largely attended, was a very pleasant affair.

[illegible]—Harmony Hall was full, Saturday evening on the occasion of Prof. Plummer's farewell [illegible]. As usual, the professor gave his audience satisfaction. His dialectic delineations were [illegible] laughable, while his efforts in the higher [illegible] were good and received liberal applause. [illegible] give an entertainment to-night at Oregon City [illegible] goes to Salem, Albany, Corvallis, Eugene, and [illegible] through the State to California. We take pleasure [illegible] him to the liberal patronage of the interior and southern portions of the State.

[illegible] Iron.—The arrival per steamer *Montana* of [illegible] iron, was sufficient to make the length of rail [illegible] about twenty-one miles. There is, therefore, [illegible] of failure of iron to arrive. This length of rail [illegible] of the one hundred tons purchased of the O. [illegible] Co. The latter, not being first-class rail will be [illegible] switches and turnouts, only.

[illegible] Thanks.—The ladies of the First Baptist Church desire to return their thanks to Gen. Crook for [illegible] the 23d Infantry Band at their service; [illegible] Band for the choice music discoursed during the evening; [illegible] Jackson, Sanderson & Co., and to the public for the liberal patronage at the Festival on Friday [illegible].

[illegible].—The U. S. surveying schooner *Humboldt* has [illegible] winter quarters, it being impracticable to prosecute work during the winter except at great disadvantage. The *Fulkinburg* went to sea last Thursday. The [illegible] arrived from Portland Friday evening. The [illegible] *Walter Raleigh* is still in port.

The Fire Department Election.—The annual election for [illegible] a Chief Engineer and a First and Second Assistant Engineers of the Fire Department, will take place to-day. The polls will be opened at 10 o'clock A. M. at [illegible] Protection Co. No. 4, and close at 4 P. M.

Removal.—Capt. Chas. Hopkins has removed his stock of goods from the building on corner of Front and [illegible] into Masters' new brick, next door to J. B. [illegible]. He has a large stock on hand and is receiving [illegible], very extensive additions to it.

Sale of Government Property.—Gen. Saxton, Chief Quartermaster of the Department of the Columbia, advertises for sale at Walla Walla, January 5th, at auction, [illegible] horses, sixty-nine mules and thirteen ridding saddles, the property of the United States.

Held to Answer.—John Leonard, the gold dust thief, [illegible] Justice Bull on Saturday. He waived an examination, and was held to answer for grand larceny, bail being fixed at $1,200, in default of which he was committed to the county jail.

[illegible] Steamer.—The steamship *Ajax* will sail from San Francisco for this port to-morrow, and may be expected here on Friday or Saturday next.

[illegible] Schools.—The winter term of all the Public Schools will begin to-day.

Oro Fino Theater.—To-night, the great sensational drama of "Nick of the Woods" will be presented with Mrs. Carrie Carter as Lelie Doe, supported by Mr. Carter as Nick of the Woods, and the full strength of the company.

Mr. and Mrs. Bates.—We learn from the *Statesman* that Mr. and Mrs. Bates' first entertainment at Reed's Opera House, Salem, Saturday evening, was very successful. Glad to hear it.

The Ladies' Festival.—The amount realized by the ladies of the Baptist Church, at their festival of last Friday evening, was $305. This will go far toward furnishing the Church.

Sale of Real Estate.—On Saturday Mr. A. B. Richardson sold at auction, the north half fractional block 34, in this city for $2915.

For San Francisco.—The steamship *Montana*, Bluewood, Commander, will sail for San Francisco at 4 o'clock to-morrow afternoon.

Funeral.—The funeral of F. J. Strolling was attended yesterday by a large concourse of firemen and citizens, friends of the family.

Fenian Brotherhood.—The Fenian Brotherhood held a meeting at Washington Guard's Hall yesterday.

The Nobby Hat, and the Don Carlos Hat are all the rage. They arrived per steamer *Montana*, and are for sale at Meussdorffer's.

Congress meets the first Monday in December, when the President's annual message will be read, which will make some good suggestions and bring to light some startling facts, but none so truthful as the fact that KOHN & FISHEL are selling the handsomest, most stylish and durable Clothing and Furnishing Goods for less money than any other house in Oregon.

Their Stock of Dry Goods is offered at cost to close that line of Trade.

The subjoined correspondence sufficiently explains itself.

Portland, Oregon, Nov. 15, 1869.

Messrs. Everson & Haines, General Agents New England Mutual Life Insurance Company, Boston.

Gentlemen—On my own behalf and in the name of my orphan children, I beg to thank you, and through you the New England Mutual Life Insurance Company of Boston, for its munificence in paying me my terminated policy on the life of my husband. On the 21st January, 1868, misfortune compelled me to forego the payment of the last premium—which non payment in any other company would have lost me my policy, but I am now overjoyed with the receipt of the amount of the policy (less the amount of the unpaid premium only), thanks to the equity of the Massachusetts Lapse Laws, that must bless many widows and their children. I recommend the New England Mutual to all who would provide against possible misfortune. I sincerely thank you again, gentlemen, for the payment, and also for your generous and gentlemanly assistance in the matter.

Respectfully, BETSEY MILLER.

Portland, Oregon, Nov. 15, 1869.

Messrs. Everson & Haines, General Agents of the New England Mutual Life Insurance Company of Boston,

Gentlemen—Having taken a lively interest in the affairs of the large and destitute family, left by an old resident of this city, who died Aug. 2, 1869, and who was insured in the New England Mutual Life Insurance Company, we take pleasure in making the following statement for the information of the public:

A. E. O. Miller was insured by ordinary Life Policy No. 13,054, bearing date January 21, 1863. He paid annual payments to January 21, 1868, inclusive. Since then nothing has been paid. He died August 2, 1869, over eighteen months after last payment of premium, yet your company working under the Equitable Lapse Laws of Massachusetts, pays the widow and orphans the whole policy, deducting only the premium due; while in all other companies doing business here, about which we know anything, the policy would long since have been forfeited.

By the New England Mutual, the widow has been paid $4,650 50. This we consider munificent, more especially when we take into consideration that the family would not have received a cent from any other company doing business on this coast. This in our estimation is enough to recommend this company above all others. This is Equity, this is Mutuality. We, therefore, commend this company to the public, as the only company that has no forfeitures.

We herewith inclose you the acknowledgments of the widow.

Respectfully yours, etc.

JACOB MAYER,
GEORGE H. FLANDERS,
M. SELLER.

To Messrs. C. Bills, J. Myer, Geo. H. Flanders and M. Sellers.

Gentlemen:—Your favor of yesterday, inclosing "acknowledgments of Mrs. Miller," is at hand.

Please accept our thanks for the voluntary justice you have done the company we represent.

Yours Very Truly,

Words of Weight for Wives and Mothers

The superiority of HOSTETTER'S STOMACH BITTERS over all other tonics and correctives, as a remedy for dyspepsia, biliousness, nervous affections, and all complaints of the visceral organs, and as a preventive of malarious disorders, is proverbial, but perhaps it is not so generally known that the ingredients of this famous invigorant and alterative exercise a powerful and most beneficial influence in that numerous and distressing class of ailments, of which so many thousands of delicate women are the patient, uncomplaining victims. The special troubles of the sex commencing with the dawn of womanhood, and extending over a period of thirty to thirty five years, are as readily and certainly relieved by the operations of this admirable vegetable preparation, as any of the complaints common to both sexes, for which it is recommended as a specific. The attention of mothers is invited to its balsamic effect in those peculiar cases of functional irregularity and irritation, which, when neglected or maltreated, destroy the health and shorten the lives of so many invalids. There is no need for the powerful and dangerous drugs too often resorted to in such cases. The mild tonic and restorative action of the BITTERS is all the assistance that nature requires in its struggle to overcome the difficulty, and a vast amount of suffering will be spared to the sex, if they placed implicit faith in this wholesome vegetable invigorant, corrective and nervine, and discarded the pernicious nostrums advertised by ignorant and mercenary charlatans.

DR. J. H. HATCH,

DENTIST.

The patronage of those desiring FIRST-CLASS OPERATIONS respectfully solicited.

Perfection in all cases guaranteed.

What is a Tonic?

Bear this in mind,—that although a tonic is to a certain extent, a stimulant,—a stimulant unmodified by any medicinal substance, is not a tonic, but a DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the *rye spirit* which forms the alcoholic basis of the BITTERS, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature, so that it becomes, in fact, a simple diffusive agent, minus all the heady and brain exciting properties which belong more or less to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective,—increasing their active power and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache as unmedicated stimulants are apt to do, this salubrious tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the animal vigor, regulates organic action, and from its mild yet effective alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

Use KANE'S IMPERIAL CONDENSED SOAP. It washes without rubbing. For sale by Allen & Lewis, Corbitt & McCleay, R. G. Sneath and all retailers.

NASBY

NASBY IN NEW YORK—HE IS STARTED IN BUSINESS BY THE DEMOCRATIC MANAGERS AND HAS A GOOD THING IN HIS HANDS, BUT WHISKY BLIGHTS HIS EFFECTS, AS IT HAS MANY TIMES BEFORE.

Noo York, November 9, 1869.

Retrospex may be profitable but when yoo cast your piercen eye back and onto a time when yoo made a cussid ass uv yourself, they are far from bein pleasant. I am doin that thing at this present moment. Wunst agin a forchin hez been with in my grasp, and wunst agin hev I permitted it to slid from me! [illegible] Fool! Loonatic! I arrived in this city two days before the recent elecshun feelin that where votes wuz in sich demand there must be sumthin to be made for me. By inquiry I found where the headquarters of the Democratic General Committee for the city wuz located and at about 10 A. M. which means in the mornin, I went there, intendin to offer myself ez a man uv all work fur the two days succeedin. I found there a vast crowd uv men, who were all uv em like me in some respects, varyin uv course in many pints but all uv the same species. The Chairman of the Committee wuz distributin funds to em to be youzed, and they wuz a walkin up to get instructions in a sort of a procession. Noticin that the bizness wuz bein done loosely, I dropped into the procession, and shoor enough the distributor handed me a package, sayin, "Terence, be shoor you get em all from the ship—Barney McShane will give you the papers for em, and tell yoo what names to vote em under!"

He had mistook me for Terence somebody. Shood I undeceive him? Never! So slappin the package into my pocket I answered, assumin the Irish brogue

"Arrah, musha, be jabbers my jewel, I'm the bye."

Fortunately I wuz crowded out before I had time to air much more Irish. I wuzn't a success as a talkin Irishman. At the foot uv the stairs I opened my package. It wuz greenbax. "This money," I sed to myself, "wuz given to me to further the cos of Dimocracy; for that purpose I'll use it; I'll start a grocery." And forthwith that day, I leased a room in a Democratic locality, purchased a counter, a barl uv whisky, a dozen tumblers, a lithograph portraits uv Gineral Jackson and Governor Hoffman, and wuz all reddy for bizness the mornin uv elecshun.

There wuz a rush the moment I took the shutters down, and I took in money faster than I ever had before in my life.

"At last," sed I to myself exultinly, "at last I hev found my speer. Nasby, yoo in luck—luck I'll drink to my luck."

And I took a nip. Skasely wuz it down before a ward politishun cum in with three or four voters wich he wuz takin care uv. They drank, the leader uv the party askin me to jine em; which I did. Ez they went out I coodent avoid drinkin' to the success uv the ticket, then to the the confooshen uv Horris Greeley, then to the memry uv James Bookannon, then to the memry of Franklin Pierce, then to Jeff Davis, and by this time I found myself outside of the bar, into the middle uv the room, in a confoosed state uv mind and body. In short, I wuz very drunk—Noo York whisky aint like the Kentuck article.

At this critical moment a man entered hurridly, and seein me leanin agin the wall, went behind the bar and helped himself. Seein him behind the bar I forgot that I wuz the landlord myself. I knowed I wuz in a grocery—that bein where I am most of the time—but in my intoxicashun I forgot that I wuz landlord, and the miserable wretch behind the bar, comprehendin the situashen, let me go on in my delushen. Staggerin up to the bar I sed, "set me up again," which he did, and I drank solemly to the memory of Geo. H. Pendleton and the other dead Democracy, uv my own whisky, and then, like loonatic I wuz, I paid for it out uv my own pockit, and kept payin for whisky for others ez long I had a dollar! The man behind the bar asked me to drink, wich I did; then I asked the crowd of fellows which come in to drink with me, telling the new barkeeper to charge it, which he sed he wood, laffin uproriously.

I needn't continyoo this confession. Suffice it to say that the next morning I awoke in that identical room chilled completely thru. There was no whisky in the barrel, not enuff for my mornin's nip, and I hadn't a cent in my pocket, ez I had paid all that wuz paid me by the Committee's money and wat I had taken in early in the day for my own licker to the fellow who took advantage uv my situashin to usurp my place!

I shel never succeed on that side uv the bar. I am not kalkilated to take care uv my own whisky.

It's astonishin how strong habit is! The moment I found I had credit, I commenced improvin uv it. "Set em up!" I shrieked as each new squad come in. "Set em up!" and the alacrity with which they drank wuz wonderful. The noos got out that in sich a place there wuz a loonatic treatin everybody who came in, and a perfect stream rushed in.

I remember but very little of what occurred. I recollect distinctly uv votin three or four times and uv returnin each time to my place and treatin a crowd, tellin the barkeeper to charge it. I remember wunst feelin bad for him, and sayin confidentially to a man who wuz takin suthin with me that this house wouldn't last long of it continyood to give credit miscellaneously, forgettin in my drunkenness that it wuz my whisky I wuz drinkin and givin to others to drink all the time!

I shel not, however, leave Noo York. We hev got the Legislature now, and I shel find suthin to do. We shel, uv course, repeal the Metropolitan Police law, and all other laws wich takes control out uv the hands uv Democratic officials, and of amongst so many [illegible] ez there is goin to be, there ain't suthin for me, it will be singler. This the troo Democratic paradise. We hev fat Ablishnists to tax, and the control is in our hands, and here I stay. To git an offis I may hev to change my name to Michael, ez I did wunst before, but I shel do it. I am too old to wander up and down the earth, and here I stick.

PETROLEUM V. NASBY, P. M.,
(Wich wuz Postmaster.)

THE LARGEST HOTEL IN AMERICA.—Few people who pass through Broadway are aware that on that bustling thoroughfare, between Amity and Bleecker streets, there is now in course of erection, on the site of the Lafarge Hotel, one of the largest and most magnificent hotels on the Western Continent, which, when completed, will throw into the shade the largest hotels in this country—rivalling even the "Grand Hotel" at Paris in magnificence. Since the disastrous fire in April, 1867, which destroyed the Winter Garden Theatre under the Lafarge House, that hotel has been closed. In March last it was sold at public auction by the heirs of the Lafarge estate to E. S. Higgins, Esq., who is reported fourth on the list of wealthy citizens, for $1,000,000. This gentleman determined on erecting the largest hotel in the country, and will doubtless succeed, as when completed the new hotel will contain 630 rooms, 200 more than either the Fifth Avenue, Metropolitan, or St. Nicholas Hotel, and 100 more than the celebrated "Lindell" Hotel at St. Louis, which was burned some three years ago. 300 of the rooms will be parlors *en suite*. It is to be named the "Southern Hotel" and is designed to accommodate 1,200 guests. It will be eight stories in height, surmounted with three gothic towers on the Broadway front. Three elevators, which will perform the trip from the first floor to the attic in 30 seconds, will be in use for the benefit of guests night and day. One item alone—upholstery and furniture—will involve an expenditure of $1,400,000, the articles mentioned having been ordered from Paris and this city. The halls and rooms will require carpeting sufficient to cover seven acres, and will be of the finest quality—Brussels and velvet. All the rooms will be heated with steam, and on each floor hydrants, hose, and everything necessary will be furnished to extinguish fire. There will be three large dining-rooms extending from the main hall on the second story to the Mercer street wall, the largest of which will accommodate 500 guests. There are at present 350 men employed on the building, and the contractor calculates that he will complete it by the first of June next, but the hotel will not be open for the reception of guests until the following August. When completed it will have cost the proprietor $1,600,000.—*N. Y. Tribune.*

SAVE THE DEAD LEAVES.—If every farmer and gardener would think for a moment upon the qualities of fallen leaves, which contain not only the vegetable matter, but the earthly salts, lime, potash etc., needed for the next season's growth and fertility, and that, too, exactly in the proportion required by the very tree and plant from which they fall, nay, more, if they would consider that it is exactly in this way that Nature enriches the soil, year after year, in her great forests, it would scarcely be possible for them to allow these leaves to be swept away by every wind that blows, and finally lost to them. If the leaves which fall from each tree could be dug into the soil, where they would decay, they would prove the best food for the trees. If this plan were to be tried we should not see old orchards dying out for want of nourishment, but they would receive all the stimulant they required. In certain vineyards in France and Italy the vines are kept in the highest condition by simply burying at their roots every leaf and branch that is pruned off, or falls from the vines at the close of the season. It is well known that no manure is more desirable for the florist than that obtained from leaves. Collected and mixed with the barnyard manure they are greatly prized. Therefore gather up the leaves that nothing shall be lost.—*Hearth and Home.*

THE "REDSTOCKINGS" GOING TO EUROPE.—The Springfield *Republican* says:

The famous "Redstocking" base-ball club of Cincinnati, (O.,) finds itself at the close of the season of 1869, in the same difficulty of which Alexander the Great is reported to have complained, it has no more clubs to conquer and having beaten everything which could be brought against it from Boston to San Francisco, and now proposes a trip to Europe, next summer, to show our cousins over there how we play ball when we go at it in earnest. This is only a fair balancing of the account which the Harvard and Oxford race opened, and if the "Redstockings" play in England, next summer, we shall be much surprised if the international sporting record for 1870, does not close up with heavy odds in favor of Brother Jonathan. Base-ball is pre-eminently our national game, while boating is only local strength, and we couldn't send abroad any better representatives of professional skill and physical development, than the Cincinnati nine, who will more than regain on the field what the Harvards lost on the Thames.

HOAGLAND'S

NEW PATENT SHAFT COUPLING!

W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,

Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

INSTRUCTIONS TO BIDDERS AND POSTMASTERS.

Containing also conditions to be incorporated in the contracts to the extent the Department may deem proper.

1. Seven minutes are allowed to each intermediate office, when not otherwise specified, for assorting the mails, but on railroad and steamboat routes there is to be no more delay than is sufficient for an exchange of the mail pouches.

2. On railroad and steamboat lines, and other routes where the mode of conveyance admits of it, the special agents of the Post Office Department, also post office blanks, mail bags, locks and keys, are to be conveyed without extra charge.

3. On railroad and steamboat lines the route agents of the Department, also the British and Canada mails, when offered, and the agents accompanying them, are conveyed without charge; and for the use of the United States agents a commodious car, or part of a car, properly lighted, warmed and furnished and adapted to the convenient separation and due security of the mails, is to be provided by the contractor, under the direction of the Department.

Railroad and steamboat companies are required to take the mail from, and deliver it into the postoffices at the beginning and end of their routes, and to and from all offices not more than eighty rods from a station or landing. Proposals may be submitted by the companies for the performance of all other side service—that is, for offices over eighty rods from a station or landing.

There will be "way bills" prepared by postmasters, or other agents of the Department, to accompany the mails conveyed on railroads and steamers, specifying the number and destination of the several bags. On other principal routes, likewise, receipts will be required and way bills forwarded, the latter to be examined by the several postmasters to insure regularity in the delivery of mails.

4. No pay will be made for trips not performed; and for each of such omissions, not satisfactorily explained, three times the pay of the trip will be deducted. For arrivals so far behind time as to break connection with depending mails and not sufficiently excused, one-fourth of the compensation for the trip is subject to forfeiture. For repeated delinquencies of the kind herein specified, enlarged penalties, proportioned to the nature thereof, and the importance of the mail, may be made.

5. For leaving behind or throwing off the mails, or any portion of them, for the admission of passengers, or for being concerned in setting up or running an express conveying intelligence in advance of the mail, a quarter's pay may be deducted.

6. Fines will be imposed unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons, for failing to arrive in contract time; for neglecting to take the mail from, or deliver it into a postoffice; for suffering it to be wet, injured, destroyed, robbed or lost; and for refusing, after demand, to convey the mail as frequently as the contractor runs or is concerned in running a coach, car, or steamboat on a route.

7. The Postmaster General may annul the contract for repeated failures to run agreeably to contract; for violating the post office laws or disobeying the instructions of the Department; for refusing to discharge a carrier when required by the Department to do so; for running an express as aforesaid, or for transporting persons or packages conveying mailable matter out of the mail.

8. The Postmaster General may order an increase of service on a route by allowing therefor a *pro rata* increase on the contract pay. He may change schedules of departures and arrivals in all cases and particularly to make them conform to connections with railroads, without increase of pay, provided the running time be not abridged. The Postmaster General may also discontinue or curtail the service, in whole or in part, in order to place on the route superior service, or whenever the public interests in his judgment, shall require such discontinuance or curtailment for any other cause, he allowing as full indemnity to contractor one month's extra pay on the amount of service dispensed with, and a *pro rata* compensation for the amount of service retained and continued.

9. Payments will be made by collections from, or drafts on, postmasters, or otherwise, after the expiration of each quarter—say in November, February, May, and August.

10. The distances are given according to the best information; but no increased pay will be allowed should they be greater than advertised, if the points to be supplied are correctly stated. *Bidders must inform themselves on this point*, and also in reference to the weight of the mail, the condition of the roads, hills, streams, &c., and all toll bridges, ferries or obstructions of any kind by which expense may be incurred. No claim for additional pay based on such ground can be considered; nor for alleged mistakes or misapprehension as to the degree of service; nor for bridges destroyed, ferries discontinued, or other obstructions increasing distance or expense occurring during the contract term. Offices established after this advertisement is issued, and also during the contract term, are to be visited without extra pay if the distance be not increased.

11. Bidders are cautioned to mail their proposals in time to reach the Department by the day and hour named (3 p. m., March 1, 1870,) for bids received after that time *will not be considered* in competition with a bid of reasonable amount received in time. Neither can bids be considered which are without the guarantee required by law and a certificate of the sufficiency of such guarantee.

12. Bidders should first propose for service strictly according to the advertisement, and then, if they desire, *separately* for different service; and if the *regular* bid be the lowest offered for the advertised service, the other propositions may be considered.

13. There should be but one route bid for in a proposal. Consolidated or combination bids (proposing one sum for two or more routes) are prohibited by law, and cannot be considered.

14. The route, the service, the yearly pay, the name and residence of the bidder (that is his usual post office address,) and the name of each member of a firm, where a company offers, should be distinctly stated.

15. Bidders are requested to use, as far as practicable, the printed proposals furnished by the Department, to write out in full the sum of their bids, and to retain copies of them.

Altered bids should not be submitted, nor should bids once submitted be withdrawn. No withdrawal of a bidder or guarantor will be allowed unless the withdrawal is dated and received before the last day for receiving proposals.

Each bid must be guaranteed by two responsible persons. The bid and guarantee should be signed plainly with the full name of such person.

The Department reserves the right to reject any bid which may be deemed extravagant, and also to disregard the bids of failing contractors and bidders. (Act of July 2, 1836, section 24.)

16. The bid should be sealed, superscribed "Mail Proposals, State of Oregon," and addressed "Second Assistant Postmaster General, Contract Office," and sent by *mail*, not by or to an agent; and postmasters will not enclose proposals (or letters of any kind) in their quarterly returns.

17. The contracts are to be executed and returned to the Department by or before the 1st day of July, 1870, but the service must be begun on that day, or on the day next after it, whether the contracts are executed or not.

Transfers of contracts, or of interest in contracts, are forbidden by law, and consequently cannot be allowed. Bidders will therefore take notice that they will be expected to perform the service accepted to them through the whole term of the contract.

18. Postmasters at offices on or near railroads, but more than eighty rods from a station, will, immediately after the 1st of March next, report their exact distance from the nearest station to enable the Postmaster General to direct a mail messenger supply from that station.

19. Section eighteen of an act of Congress approved March 3, 1845, provides that contracts for the transportation of the mail shall be let, "in every case, to the lowest bidder tendering sufficient guarantees for faithful performance, without other reference to the mode of such transportation than may be necessary to provide for the due celerity, certainty and security of such transportation." Under this law bids that propose to transport the mails with "*celerity, certainty, and security*," having been decided to be the only legal bids, are construed as providing for the entire mail, however large, and whatever may be the mode of conveyance necessary to insure its "celerity, certainty and security," and have preference over all others, and no others are considered.

20. A modification of a bid in any of its essential terms is tantamount to a new bid, and cannot be received so as to interfere with regular competition, unless a new bid, with guarantee and certificate, is filed to modify a previous bid.

21. Postmasters are to be careful not to certify the sufficiency of guarantors or sureties, without knowing that they are persons of sufficient responsibility; and all disregard of this instruction by postmasters is a violation of their oath of office, subjecting them to immediate removal. All bidders, guarantors, and sureties are distinctly notified that on a failure to enter into or perform the contracts for the service proposed for in the accepted bids, their legal liabilities will be enforced against them.

22. Present contractors, and persons known at the Department, must equally with others, procure guarantors and certificates of their sufficiency substantially in the forms above prescribed. The certificate of sufficiency must be signed by a postmaster, or by a judge of a court of record. No other will be admitted.

JNO. A. J. CRESWELL,
Postmaster General.

BALSAMIC COMPOUND.

THE GRAND DESIDERATUM OF THE AGE.

AMONG THE MOST PAINFUL AND distressing disorders to which the human frame is subject, are those engendered by affections of the organs, resulting either from the contagion of impure and unrestrained passion, or to constitutional weakness and infirmity. Nothing tends more to impair the constitution or undermine the very foundation of health than the neglect, or improper treatment of these diseases.

In the former case, the most terrible results are often incurable; and in the latter, the system is weakened, and in many cases destroyed by the use of powerful and deleterious medicines.

The BALSAMIC COMPOUND, after a long and successful experience is now confidently submitted to the public as an *infallible* and *safe specific* for the cure of these painful and widely spread diseases above referred to, and all complaints of the Urinary and Genital Organs.

As a *Preventive* of these distressing diseases, it is often the result of indiscretion, the Balsamic Compound will be unfailing in its effects. It possesses the advantages of being taken without any change or restriction in diet, and as it is a purely vegetable compound may in all cases be used with perfect safety. Sold in Portland by S. G.
